

**Department of Energy**  
**Construction Safety Advisory Committee Meeting Minutes**  
**(meeting held via webinar)**  
**September 28, 2016**

1. Mr. Craig Schumann, Chair, welcomed attendees and explained the logistical details of the webinar.
2. Mr. Craig Schumann, Chair, gave the opening presentation on “DOE 10 CFR 851 vs. OSHA 29 CFR 1926” including a brief presentation on the recent release of the DOE Technical Standard 1149-2016 “Safety and Health Program for DOE Construction Projects.” Due to the recent release of the document, it was not discussed in detail but was suggested as a discussion topic for the next committee meeting (see attached presentation).
3. Mr. Tom Wirgau, an instructor with the Office of Construction Safety Training/OSHA Training Institute followed with a presentation on “Understanding Confined Spaces in Construction- OSHA 1926 Subpart AA.” (see attached presentation)
4. Mr. Jeff Williams from the DOE Los Alamos Site Office followed with a presentation on “Lessons Learned from the 2015 Los Alamos Electrical Arc Flash Event” (see attached presentation)
5. Mr. Scott Wenzholz and Mr. Tom Rizzi, both from the DOE SLAC Site Office gave the final presentation on “Fall Protection Issues/Discussion.” (see attached presentation)
6. After a brief period of open discussion, the meeting was adjourned.
