2017 PROJECT PEER REVIEW

U.S. DEPARTMENT OF ENERGY
BIOENERGY TECHNOLOGIES OFFICE

March 5-10, 2017 | Denver, Colorado

The U.S. Department of Energy's Bioenergy Technologies Office (BETO) will hold its 2017 Project Peer Review on March 5-10, 2017, at the Sheraton Denver Downtown (1550 Court Pl, Denver, CO 80202). Approximately 90% of projects in BETO's research, development, and demonstration portfolio will be presented to the public and systematically reviewed by external subject-matter experts from industry, academia, and federal agencies.

The 2017 Peer Review will include simultaneous review sessions of projects across BETO's technology areas:

Algal
Biofuels

Feedstock
Supply and
Logistics

Conversion
Technologies

Demonstration
and Market
Transformation

Sustainability

Analysis

You are invited to join us for this opportunity to learn more about innovation in bioenergy technologies and the BETO project portfolio. Online registration will be available soon!
