5.1 Scope

- (A) This article is applicable to all cooperative activities undertaken pursuant to this Agreement, except as otherwise specifically agreed by the Parties or their designees.
- (B) For purpose of this Agreement, "intellectual property" shall have the meaning found in Article 2 of the Convention Establishing the World Intellectual Property Organization, done at Stockholm, July 14, 1967.
- (C) This Article addresses the allocation of rights and interests between the Parties. Each Party shall ensure that the other Party can obtain the rights to intellectual property allocated in accordance with this article by obtaining those rights from its own participants through contracts or other legal means, if necessary. This article does not otherwise alter or prejudice the allocation between a Party and its nationals, which shall be determined by that Party's laws and practices.

- (D) Disputes concerning intellectual property arising under this Agreement shall be resolved through discussions between the concerned participating institutions or, if necessary, the Parties or their designees. Upon mutual agreement of the Parties, a dispute shall be submitted to an arbitral tribunal for binding arbitration in accordance with the applicable rules of international law. Unless the Parties or their designees agree otherwise in writing, the arbitration rules of the United Nations Commission on International Trade Law (UNCITRAL) shall govern.
- (E) Termination or expiration of this Agreement shall not affect rights or obligations under this Article.

5.2 Allocation of Rights

- (A) Each Party shall be entitled to a non-exclusive, irrevocable royalty-free license in all countries to translate, reproduce, and publicly distribute scientific and technical journal articles, reports, and books directly arising from cooperation under this Agreement. All publicly distributed copies of a copyrighted work prepared under this provision shall indicate the names of the authors of the work unless an author explicitly declines to be named.
- (B) Rights to all forms of intellectual property, other than those rights described in paragraph 5.2(A) above, shall be allocated as follows:
 - (1) Visiting researchers, for example, scientists visiting primarily in furtherance of their education, shall receive intellectual property rights under the policies of the host institution. In addition, each visiting researcher named as an inventor shall be entitled to national treatment with regard to awards, bonuses, benefits, or any other rewards, in accordance with the policies of the host institution.

- (2) (a) For intellectual property created during joint research, for example, when the Parties, participating institutions, or participating personnel have agreed in advance on the scope of work, each Party shall be entitled to obtain all rights and interests in its own country. Rights and interests in third countries shall be determined in implementing arrangements. If research is not designated as 'joint research' in the relevant implementing arrangement, rights to intellectual property arising from the research shall be allocated in accordance with paragraph 5.2(B)(1) above. In addition, each person named as an inventor shall, nonetheless, be entitled to national treatment with regard to awards, bonuses, benefits, or any other rewards, in accordance with the policies of the participating institutions.
- (b) Notwithstanding paragraph 5.2(B)(2)(a) above, if a type of intellectual property protection is available under the laws of one Party but not the other Party, the Party whose laws provide for this type of protection shall be entitled to all rights and interests worldwide.

5.3

Business Confidential Information

In the event that information identified in a timely fashion as business-confidential is furnished or created under this Agreement, each Party and its participants shall protect such information in accordance with applicable laws, regulations, and administrative practices. Information may be identified as "business-confidential" if a person having the information may derive an economic benefit from it or may obtain a competitive advantage over those who do not have it, the information is not generally known or publicly available from other sources, and the owner has not previously made the information available without imposing in a timely manner an obligation to keep it confidential.

ARTICLE 6

Unless otherwise agreed, all costs resulting from cooperation pursuant to this Agreement shall be the responsibility of the Party that incurs them. The ability of the Parties to carry out their obligations is subject to the appropriation of funds by the appropriate governmental authority and to laws and regulations applicable to the Parties.

All information or equipment transmitted by one Party to the other Party under this Agreement shall be appropriate and accurate to the best knowledge and belief of the transmitting Party; but the transmitting Party does not warrant the suitability of the information or equipment transmitted for any particular use or application by the receiving Party or by any third Party. Information or equipment developed jointly by the Parties shall be appropriate and accurate to the best knowledge and belief of both Parties. Neither Party warrants the accuracy of the jointly developed information or the appropriateness of equipment nor its suitability for any particular use or application by either Party or by any third Party.

ARTICLE 8

All questions related to the interpretation or application of this Agreement shall be settled by the Parties by mutual agreement.

ARTICLE 9

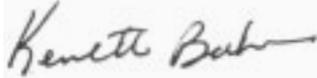

This Agreement shall enter into force upon signature by each Party and shall remain in force for five (5) years. This Agreement may be modified or extended by mutual written agreement of the Parties. This Agreement may be terminated upon one (1) year advance notification, in writing, by the Party seeking to terminate.
